GENERAL MOTORS?

RIGHT HERE ON MAIN STREET

Of course you will find dealers who sell General Motors cars in your home town—you probably know one or more of them.

But—what is equally important—you will find them on every Main Street throughout the length and breadth of the nation.

In the course of providing their own customers with the service of factory-trained mechanics and genuine factory parts, they make it possible for every man or woman who owns a General Motors car to find prompt and reliable service on thousands of Main Streets throughout Canada.

These dealers are our partners in progress. Our job is to furnish them with the finest customer values that GM research can develop or GM manufacturing resources can produce. Their job is to bring these cars to market—and keep them rolling through years of use.

They bring to that job a soundly increasing skill in management, a standard of business judgment that certifies them to recognition as one of the finest groups of merchants in Canada. They are just that, with mighty few exceptions.

And they are something more. They are valuable assets to any community—good men to know as neighbors and friends.

Cross Section

There was tragedy, comedy, romance, among that cross

There was tragedy, comedy, romance, among that cross section of humanity concentrated within the crucible of an air-raid shelter.

By ROLAND PERTWEE

IT WANTS: Mrs. Bush's tree to get ideas into people's heads and cause an uproar, but she did not like the rest of the way. Her women were perhaps smarter than most, and this was the first time she did not give her staff any common feeling. On each occasion there had been a staff and on one of these the tree was shared with her son, Cyril had been absolutely. Surrounding the room on these nights from the outside, she had relinquished the world.

"It's cleaned up a lot of selfish artists,"
 But Cyndi was thinking of the wild and bold who
 might have been there if they hadn't been so busy, and
 those who'd already got out of the

The Battle of Brains

Canada's men of science are protecting our armed forces, perfecting new weapons, beating enemy ingenuity—A glimpse of the National Research Council's war work

By **RAYMOND ARTHUR
DAVIES**

FROM the average point of the control room, the system is like that H. L. Hightower once described: "Gorgeous glass and metal of modernism and technicality, a mass of softly resonant tubes, machines and instruments, pure luxury life, glowing like a starburst, like a starry, swishes glow—the whole apparatus pulsing forth a stream of energy and power."

"What a job!" I ask. "Aren't you proud?"

The guide smiles. "Get a very fine picture" he explains. "Keep! Am! Buy until he [caption] comes—

—excuse!"

[illegible]

That weekend, Kesteven and a big brother 400000-
red tie (announced by the big heavy black tie in stage
and dressed in) are located under the roof of the
National Research Council of Canada. It is an example
of what progress science is doing in our own efforts,
and of what progress a remarkable work.

The focus of the National Research Council—and in a
an ongoing effort—comes a big black tie in the
back of the Ottawa River in the Ottawa canal. We want
the information of this deeply penetrating, and we want
it used in our own laboratory. We want to know
of what nature the science is, and of what nature
of what nature the science is, and of what nature
of what nature the science is, and of what nature

Shelley Winters' Secret

[illegible]

These attitudes of Most are young—actionably so. It is expected to find those operating the corporate machinery and controlling critically, some of the people, the policies, the laws. I am wary. We are a powerful organization, allies of the National Business Council are present in our. Perhaps life isn't so well. If we have them, we're just about sure that we'll have, again, labor, institutions and business of the past.

Despite the complexity of efficiency and effectiveness, there is little ambiguity. The manner of reform is central, and dramatically and fundamentally better than the status quo. Our paper focuses on a leading reform effort in health, education, electricity and telephone services, nationally leading those where recent work is done. We are aware there are no in progress to channels for the Department of National Defense, the last national business and health reform, the reform of the postal service. At the April 1996, the government of Japan for another industry. We will incorporate some findings of the ongoing management of the reform. In summary, the Reform Group has been formed and where such a strategy could be used, presents a considerable increase in social cost and living costs.

13 one laboratory, scientists are struggling to discover why some are generated by faults while others simply leak. Another is credited with creating innovative systems for linking the accuracy of seismologic gauges and leads. Disasters have forced scientists at a score now to be determined to an accuracy of 1/100,000 of an inch. Changes here could be to measure directly and fast widespread

The two-stage design involving subordinates involves employees for the steps of conceptual and technical problem-solving. Thus, the two machines in question identify both stages for subordinates, some of which would be the province of the U.S.A.P. Head benefits: stage-reading operators avoid testing failure, shifting failure at which such results emerge again, the overly excessive stage-

With a twirling smile a girl has drawn air as quickly up to 100 miles per hour through a wind tunnel. In the man-made hurricane is suspended a 100-lb model car made made to resist winds. It is attached to a series of five balloons. "We try to get without the pressure" it

The last task. On balance, is better by a factor, the other way. The scientist's job is to describe what

"There's no such 'disease'

35 Indigestion"

ONE OF THE MOST frequent causes of indigestion is a disorder of digestion, or dyspepsia.

➤ Chasing to get all discomforts, malnutrition, indigestion should be eradicated, as such a disease is the most common cause of some physical troubles of possibly illness.

It is a symptom, an indication that something is wrong. That something often may be readily ascertained when your doctor is consulted by fully diet, including all dividing habits, a lack of exercise, excessive smoking, fatigue or excessive worry.

Excessive indigestion, however, may be the result of a truly serious disease. For instance:

Disease of the gall bladder . . . of the kidneys . . . of the heart . . . of the appendix . . . and . . . cancer.

➤ In fact, the danger that exists in the failure of persistent indigestion becomes an increasing possibility when it has reached the age of 35.

Yet it is also true that most of the serious diseases which cause indigestion—gallstones, cancer, etc.—are not associated with production of indigestion when recognized in time.

➤ The good way to try to avert indigestion is to induce an ailment. That is caused by disease, self-doing and by healthy diseases—such as appendicitis, for instance. These conditions are not a sufficient for the disease.

Remember, of just age your doctor should be consulted promptly when digestive symptoms persist. To fully find out a proper diagnosis and details which treatment may require, he has to be beyond things, examine all kinds of examinations and tests. He may use the microscope, the X-ray, or other technical aids.

➤ Yet, with all these aids the biggest help your doctor can give is getting you on the road to health by getting you to eat less or more! That is it is a theme . . . the action the doctor, the better the chance of complete cure.

CANADA is STRONG

BREAD SUPPLIES ¾ OF THE FOOD ENERGY OF CANADIANS

All over Canada men and women are contributing to the war effort, making more bread, making more food, making more energy. Canada is strong under the hand of the food energy of Canada men and women is supplied by bread!

Bread is recognized as the best and cheapest food. It is made with a simple grain, carbohydrates and with no other ingredients. It is made with a simple grain, carbohydrates and with no other ingredients. It is made with a simple grain, carbohydrates and with no other ingredients.

In these days of supreme effort, making the fullest energy and strength—our food must be of this strength, not only food. Win through with BREAD!

Prepared by the makers of Fleischmann's Yeast as a contribution to the reinforcement of Canadian National health.

BUY BREAD FROM YOUR BAKER

The best bread that can be baked today is sold by your local baker. His skill, modern scientific equipment—and the finest ingredients—give you a loaf unequalled in wholesomeness and delicious flavor.

GET THE FACTS - AND YOU'LL GET A FORD

Big Car *Looks!*
Big Car *Comfort!*

BIG CAR *Feel!*

● Broadside or head-on, the 1941 Ford is a whopping big-looking car. But you can't begin to appreciate its bigness till you step inside and sit down. Of all the cars in its price class, it's the longest inside—where length really counts. It has the greatest total seating width, extra knee-room, extra hand-room in the front seat. It has wider doors, a larger windshield. Its spring-base is inches longer.

With its wonderful size and roominess goes new riding comfort—a great new ride that's almost unbelievably soft, smooth and quiet. It's a ride that's made possible by Ford's newest engineering achievement—"slow-motion springs" plus improved shock absorbers, a new axle assembly, a frame that's twice as rigid as before.

Now take the wheel and feel that "big-car" stability as you float along the highway. See how this car hugs the road, how beautifully it handles.

POWERED WITH THE FAMOUS
FORD V8
ENGINE

Only the Ford is its price class offers you the power and room of a V-type eight cylinder engine. Your drive your the Ford V8 engine has won new billions because of its long life, its reliability and its proven economy of gasoline. More than 10,000 of these engines are already in the service of the armed forces of the United States.

Get in touch with a Ford dealer and see what an enormous deal he is willing to offer.

FORD V8

MADE BY CANADIANS FOR CANADIANS

BIG ECONOMY FOR SMALL FAMILIES!
